RECOMMENDATIONS AND SUMMARY

Based on the listed findings, we can draw certain conclusions after evaluating the IMDB dataset:

- In the year 2019, a total of 1078 films in the 'Drama' genre were released. As a result, RSVP Movies should focus their next production on the 'Drama' genre.

- The duration of the prospective project could be around 107 minutes on average

  .
- We may deduce from the data that Dream Warrior Pictures (ranked first) or National Theatre Live (ranked second) or both could be the production company for their next play.

- James Mangold could be hired as the director for their future production because of his better average rating.

- Mammootty (Ranked 1) or Mohanlal (Ranked 2) might be recruited as the Actor for their next movie based on the median rating.

- Taapsee Pannu might be picked as the actress for their next film based on the total votes collected and average rating.

- Vijay Sethupathi might be engaged as an additional actor for their future production based on the overall votes and the regional feel.

- Marvel Studios (ranked first), Twentieth Century Fox (ranked second), or Warner Bros. might be chosen as a worldwide partner since the number of votes collected is higher than other production houses.
